

Strategic Purchase Manager

Everfuel is looking for a skilled and motivated Strategic Purchase Manager to join our team and help drive our procurement strategy forward. This role is key to ensuring efficient and professional purchasing across our projects and operations. You will be responsible for all purchasing at Everfuel, from minor purchases to major strategic negotiations for our PtX-projects. You must thrive in a role where you work both strategically and hands-on.

At Everfuel, we work to make the world a better place by showing the way to a fossil-free future. We work actively for the green energy transition by making green hydrogen commercially attractive both as a sustainable fuel in the transport sector and as a green solution for industry. We are looking for our next Everfueller, who has the motivation and ambition to make the world a better place!

Your tasks will include:

- Developing and executing strategic sourcing plans
- Negotiating contracts and managing supplier relationships, as well as Everfuel's contract database
- Collaborating cross-functionally to support project needs
- Analyzing procurement data to identify cost-saving opportunities
- Ensuring supplier compliance with ESG and sustainability standards

Who are you?

You have a relevant educational background, most likely a bachelor's or master's level. You have solid experience in strategic procurement in large-scale process equipment and projects.

You are a proactive, solutions-oriented professional and a strong negotiator with a commercial mindset. You know how to build and maintain supplier relationships.

You are structured and confident working with data and procurement systems, as well as contract management.

Furthermore, you are proficient communicator in both written and spoken English. We expect you to have strong IT skills and a digital mindset.

About Everfuel

Everfuel supplies green hydrogen to large vehicle fleets such as buses, trucks, and taxis, as well as to industrial clients. Green hydrogen is a 100% clean fuel produced from renewable energy sources and plays a key role in solving Europe's climate challenges

Our values guide everything we do. They're the foundation for how we collaborate, grow, and drive change: *We transform together*— as a united community of developers and executors working to unlock the full potential of hydrogen. We are driven by ambition and a strong sense of responsibility, with a shared desire to make a positive difference for our colleagues and the world around us. Together, we create and deliver a sustainable impact that powers a fossil-free planet.

We're based at Everfuel Farm in Høgild near Herning and in Fredericia, where we've built one of Europe's largest electrolysis plants and established new, modern offices. Your workplace will be in Fredericia.

As an employee at Everfuel, you will:

- Work in a dynamic and purpose-driven company
- Have flexible working hours and exciting assignments
- Influence decisions and shape the future of green energy
- Play an active role in the green transition

Application and contact

All applications are received and processed through our recruitment system. We encourage everyone to apply regardless of gender, ethnicity, or religion. All applications are treated confidentially. The application deadline is December 7, and you will receive a response shortly thereafter. First interviews will be held online on December 9 and second interviews December 16.
